

A romantic dinner scene featuring a couple. A woman with long, wavy red hair, wearing a white off-the-shoulder top, is seated at a table. She is holding a glass of white wine. A man in a dark suit is seated next to her, and their hands are clasped together. Another glass of white wine is visible on the table. The background is softly blurred, showing a restaurant setting with other diners and tables.

PRICING + INFO GUIDE

WE'VE SPENT OVER A DECADE shooting all kinds of weddings together around Australia and overseas - from tiny elopements to opulent extravaganzas. On snowy mountaintops, in sun-drenched villas and in dingy dive bars. The tea ceremonies, the horas - the most sacred traditions and the most chaotic dance floors.

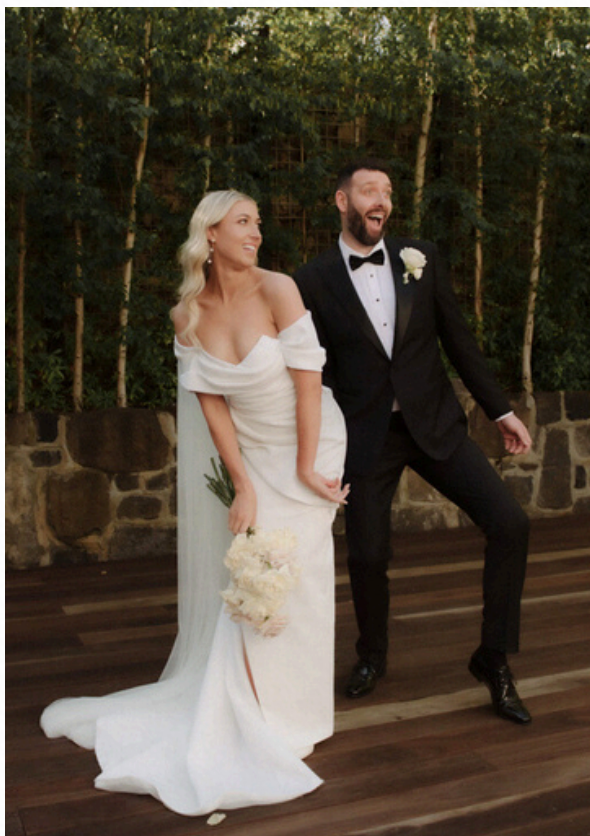

No two couples are the same, and neither are their weddings. Each couple we work with brings their own energy, unique vision and soul to their day, and we're there to carefully observe and preserve all of that: an honest depiction of who you are, and who you love.

We capture how it all feels - the real stuff. The funny bits, the tears, your nanna letting loose on the dance floor; the iconic moments and all those in-between bits you might've missed. You can stay 100% in the moment, knowing you'll be able to relive it all again and again through your photos and films.

Keen on some analogue love? We include one roll of film in every photography package, and offer more extensive film coverage for those who love those hazy, dreamy, nostalgic vibes... perfect imperfection.

Looking for someone to fill your screens with video content the day after your wedding, ready to be shared in stories and reels? We've got that covered too.

We'd love to meet you and hear about your plans, no matter how big or small - we'd be thrilled to capture it all for you.

We tend to shoot all of our friends' weddings,
but this time we were just guests, so we got a little fancy.

Give your favourite shots their full-page glory. You will love it.

- A 10x10" 80 page hardcover album, featuring up to 220 images from your day

VOWS + SPEECHES EDIT

If you love our films, then you love our music video style - gorgeous visuals edited carefully to a musical soundtrack. For those who also want to be able to hear those key spoken moments from the day: this separate film will feature audiovisual recordings of your vows, exchange of rings and first kiss, plus the reception speeches, presented amongst beautiful montages from throughout the wedding (total length 30 minutes or longer, depending on the length of your speeches).

\$600 incl GST

VOWS + SPEECHES EDIT plus ROUGH CUT

If you want it all - every little snippet that Alastair captures throughout your day, with any audio he happens to pick up with his on-camera mic - then this double add-on is for you: the above Vows + Speeches Edit, plus an unedited 'Rough Cut', featuring all of the raw footage captured throughout the day presented in chronological order, along with any audio captured while filming.

\$1000 incl GST

SECOND VIDEOGRAPHER

For more extensive coverage of your day, add a second experienced videographer to the team (particularly useful for larger weddings). A bigger team will allow us to capture more faces and moments from multiple angles and perspectives - it'll even allow us to be in two locations at once (handy if you're getting ready on opposite sides of town).

Per person, per hour (minimum 4 hours)

\$150 incl GST

VIDEO CONTENT CREATION

Keen on us capturing heaps of video moments from the day, but in a much simpler way? As an alternative to our full videography service (or as an add-on, if you want it all), we offer video content creation using iPhone 15 and 16 Pros. It's like having a best mate there who just won't put their phone away (and they have an amazing eye, and some fancy extra gear to give the content that elevated, professional feel). Within 24 hours, you'll receive hundreds of clips of moments and details in a downloadable online gallery - and over the next few days, you'll receive a ~1min highlight reel and 2 x ~30sec mini reels, edited with the same care we give to our Wedding Films. Includes up to 8 hours of coverage. Extra hours available for \$250 each.

The Process

1 Keen for us to capture your day, either as a photography + videography team, or just one or the other? We'd be thrilled to be part of it all! [Get in touch via our contact form](#) and tell us all about your plans (even if it's still very early days) - we'll check our calendars and confirm our availability for you.

We can book in a chat over Google Meet/Facetime, or just over the phone - a lovely chance to get to know each other a bit, and for us to learn all about your vision for your day. If you'd prefer to keep everything via email, that works too - please send through any questions you have and we'll get back to you straight away. Or if you're keen to just secure the date and chat later, go straight to Step 3.

3 Ready to book? Secure the date with a 30% booking fee, then we'll send through a bunch of handy info on how to get the most out of your photography/videography booking, along with timeline advice, amazing vendor recommendations, and other useful tips to help make your wedding planning easy.

Reach out at any time with any questions you have! Unsure about wet weather backup plans, or if you've allowed enough time for certain things, etc? We've acquired a tonne of knowledge from shooting over 500 weddings - we're always here and happy to help.

5 A couple of weeks from the day, we'll request a run sheet and a list of any group portraits you'd like taken. We'll let you know if we have any final questions or suggestions, and then give you a call to finalise the plans (and get very excited together).

GET HITCHED! Stay present in every moment and have the absolute time of your life, knowing we're there to capture it all... allowing you to relive all the beauty again and again through your gorgeous photos and films.

7 Within a few days of the wedding you'll receive a gallery of sneak peek photos, ready to share online or send in thank you cards (or just stare at while you're on your honeymoon), and within a few weeks you'll receive a teaser for your film. If you've booked Content Creation, you'll receive hundreds of raw videos the morning after the big day, plus three carefully edited highlight reels over the following few days.

Your complete photo gallery will land on your screens in around 8-10 weeks, and your finished film/s will arrive within a few months (we'll keep you posted on our progress). If you've ordered an album, we'll start work on the first draft - once you've signed off on the design, this premium quality treasure will be in your hands in approximately 1 month.

FAQ

Where are you based? Are you happy to travel?

We're based in Melbourne, Australia, in the beautiful Dandenong Ranges. We regularly travel for shoots, and we'll go anywhere - our passports are ready. We've been honoured to capture incredible celebrations in Sweden, France, Thailand, New Zealand, Portugal, USA, Indonesia, Fiji and all around Australia. For weddings more than 100kms out of Melbourne we'll charge a small extra fee to cover our travel expenses. For overseas weddings we can offer you special rates to make things much more affordable.

What's your vibe on the day?

We keep things calm and low-fuss - never taking over the space and getting in the way of the emotion, or running around everywhere and distracting your guests' attention. Our clients often say 'we barely even knew you were there' - this is our favourite thing to hear. We ebb and flow throughout your day, stealthily capturing moments and details without making you feel overwhelmed.

We really don't like posing, will that be a problem?

Not at all. We thrive on capturing people being their natural selves - laughing, chatting, letting loose on the dance floor. As much as we love creating gorgeous portraits, we're all about the genuine moments that happen through your day - that's the really good stuff.

While our approach is mostly unobtrusive, we're very happy to take a more directorial role during your portrait shoot if you need us to. We'll keep the 'directions' casual and non-cheesy - just enough guidance so you're not standing there thinking 'what do I do with my hands?!' (it's a thing). Side note: some people aren't even having portraits on their wedding day these days, so if it's not for you, you can always skip portraits altogether and just enjoy the party!

Would you mind not sharing our photos/films online?

Totally fine with us - if you make this request, we'll keep everything private for you. Please let us know ahead of the day.

Any tips for wedding planning? Please help!

SO many. We'll send you loads of handy tips on how to get the most out of your photography + videography booking, as well as general suggestions for how to plan your timeline. After being part of over 500 weddings, we've seen it all and we'd love to share what we know with you.

We love one of your films/photo galleries in particular, can ours please have a similar aesthetic?

Absolutely. We craft our films and photo galleries to reflect the individual couple and their day, rather than making all of our work look same-samey. If there's a particular one you've seen on our website or social media that you really love the look and feel of, please let us know.

We're only interested in booking one service (not both photography + videography), is this okay?

No problem at all. If you're just drawn to either our photos or our films, that's totally fine with us. We regularly work individually, so if you've already hired a photographer and you want Alastair to make a film on the day, or you've hired a videographer and you'd like Lucy to take the photos, we're very happy to work alongside other creative teams.

We'd love to include videography but our budget doesn't stretch that far, is Video Content Creation a good substitute?

When we first heard of people filming weddings on their phones, honestly, we weren't super keen - but we've completely come around. The latest phones capture such high quality footage - and the best part is, you'll receive hundreds of clips the next day, and edited highlight reels a few days later! It's a much simpler process than the full videography service, and much more affordable, giving you tonnes of high quality content to share in your stories and on your feed, super fast. See our [latest content creation reels here](#).

How is the music chosen for our film/s?

Finding the perfect music to suit your film is as important to us as capturing the beautiful footage. We listen to the music you play throughout your day to get a great sense of your taste, and source a soundtrack that suits you and the feel of the celebration. It's against the law to use popular hits without paying huge fees (except as part of Instagram Reels/Content Creation), so for our Wedding Films we license music from talented emerging artists from around the world, for a small fee that's built into the price of the film.

Do you support Marriage Equality?

Wholeheartedly, yes! We're thrilled to work with so many beautiful and diverse couples... whoever you are, we'd be honoured to capture your love.

Will we talk to you much before the day?

We have video/phone chats with our clients multiple times in the lead up to their big day, ensuring we have a great understanding of their vision, and how it will all unfold - and we're always available via email for any questions our clients may have.
