PRICING + INFO GUIDE

WE'VE SPENT OVER A DECADE shooting weddings together around Australia and overseas – from tiny elopements to opulent celebrations. On snowy mountaintops, in sun-drenched villas, in dimly lit dive bars. Tea ceremonies, horas, sacred traditions and chaotic dance floors.

No two couples are the same, and neither are their weddings. Each one brings its own energy, vision and soul – and we're there to observe, honour and preserve it all. An honest depiction of how it all felt, who you are, and who you love.

We capture the real stuff: the laughter, the tears, your nanna letting loose on the dance floor - the iconic moments, and the in-between bits you might've missed. You can stay fully in the moment, knowing it will all be there waiting for you in your photos and films.

Keen on some analogue love? We include one roll of 35mm in every photography package, with the option to add more for those who adore that hazy, nostalgic aesthetic. For the biggest film fans, we even offer 35mm and Super 8 only packages – no digital, no instant previews, just beautifully imperfect imagery that feels like a memory from the very beginning.

Hoping for some next-day video content for stories and reels? We can do that too – alongside or instead of a full wedding film.

We'd love to meet you, hear all about your plans (big or small), and tell your story in a way that feels real and uniquely yours.

We tend to shoot all of our friends' weddings,
but this time we were just guests, so we got a little fancy.

VIDEO CONTENT CREATION

Keen on us capturing heaps of video moments from the day, but in a simpler, more social-focused way? Content Creation is our social-forward video coverage - capturing the day as it unfolds in a more simple, share-ready format. It's a great companion to photography, or a lighter option when a full Wedding Film isn't what you're after.

Shot on iPhone Pros, we capture the key moments and all the fun, candid in-betweens as the day unfolds. It has the immediacy of a friend filming the day, shaped with the eye of a seasoned creative.

You'll receive a large collection of short clips soon after the wedding, ready to download and share. Over the following days, we'll also deliver a ~1-minute highlight reel and two ~30-second mini reels, edited with the same care and storytelling we bring to our Wedding Films.

Includes up to 8 hours of coverage. Extra hours available at \$250 per hour.

\$1,950 incl GST

The Process

1 Keen for us to capture your day, either as a photography + videography team, or just one or the other? We'd be thrilled to be part of it all! [Get in touch via our contact form](#) and tell us all about your plans (even if it's still very early days) - we'll check our calendars and confirm our availability for you.

We can book in a chat over Google Meet/Facetime, or just over the phone - a lovely chance to get to know each other a bit, and for us to learn all about your vision for your day. If you'd prefer to keep everything via email, that works too - please send through any questions you have and we'll get back to you straight away. Or if you're keen to just secure the date and chat later, go straight to Step 3.

2 Ready to book? Secure the date with a 30% booking fee, then we'll send through a bunch of handy info on how to get the most out of your photography/videography booking, along with timeline advice, amazing vendor recommendations, and other useful tips to help make your wedding planning easy.

Reach out at any time with any questions you have! Unsure about wet weather backup plans, or if you've allowed enough time for certain things, etc? We've acquired a tonne of knowledge from shooting over 500 weddings - we're always here and happy to help.

4 A couple of weeks from the day, we'll request a run sheet and a list of any group portraits you'd like taken. We'll let you know if we have any final questions or suggestions, and then give you a call to finalise the plans (and get very excited together).

5 **GET HITCHED!** Stay present in every moment and have the absolute time of your life, knowing we're there to capture it all... allowing you to relive all the beauty again and again through your gorgeous photos and films.

6 Within a few days of the wedding you'll receive a gallery of sneak peek photos, ready to share online or send in thank you cards (or just stare at while you're on your honeymoon), and within a few weeks you'll receive a teaser for your film. If you've booked Content Creation, you'll receive hundreds of raw videos the morning after the big day, plus three carefully edited highlight reels over the following few days.

Your complete photo gallery will land on your screens in around 8-10 weeks, and your finished film/s will arrive within a few months - we'll keep you posted on our progress. If you've ordered an album, we'll start work on the first draft - once you've signed off on the design, this premium quality treasure will be in your hands in approximately 1 month.

FAQ

Where are you based? Are you happy to travel?

We're based in Melbourne's Dandenong Ranges and take on a select number of interstate and international weddings each year. We've been lucky enough to capture celebrations in Sweden, France, Thailand, New Zealand, Portugal, the USA, Indonesia, Fiji and around Australia. For weddings more than 100km from Melbourne, we charge a small travel fee, and for overseas weddings we'll put together a custom travel quote

What's your vibe on the day?

We keep things calm and low-fuss - never taking over the space and getting in the way of the emotion, or running around everywhere and distracting your guests' attention. Our clients often say 'we barely even knew you were there' - this is our favourite thing to hear. We ebb and flow throughout your day, stealthily capturing moments and details without making you feel overwhelmed.

Should we book your two photographer package?

The two-photographer option allows us to capture more of your day as it naturally unfolds - more moments happening at the same time, more reactions, more guest coverage, and more variety in angles and perspectives. It doesn't change the relaxed, documentary feel of how we shoot, it just lets us be in two places at once and create a fuller, more layered story of your wedding - particularly beneficial for weddings with 120+ guests.

We really don't like posing, will that be a problem?

Not at all - many of our couples don't enjoy posing, and our approach is built around natural, candid moments throughout the day: the laughter, the movement, the spontaneous interactions that feel true to you. When it comes to portraits, we simply guide things in a way that feels comfortable. For some couples that means relaxed, natural movement with very little direction; for others it means leaning into a more editorial feel. We adapt to whatever feels right for you, never forcing anything that doesn't.

And if you'd prefer a mostly documentary approach with minimal portraits, we can shape the coverage around that too.

Would you mind not sharing our photos/films online?

Totally fine with us - if you make this request, we'll keep everything private for you. Please let us know ahead of the day.

We love one of your films/photo galleries in particular, can ours please have a similar aesthetic?

Absolutely. We tailor every film and gallery to reflect the couple and the feel of their day, rather than making everything look the same. If there's a particular one you love, let us know what aspects are speaking to you - the colours, mood, pacing, or level of editorial vs documentary - and we'll draw inspiration from that.

We're only interested in booking one service (not both photography + videography), is this okay?

No problem at all. If you're just drawn to either our photos or our films, that's totally fine with us. We regularly work individually, so if you've already hired a photographer and you want Alastair to make a film on the day, or you've hired a videographer and you'd like Lucy to take the photos, we're very happy to work alongside other creative teams.

We'd love to include videography but our budget doesn't stretch that far, is Video Content Creation a good substitute?

They're different kinds of storytelling. Our full digital videography service is cinematic, emotional and crafted with pro cameras, audio and detailed editing - it's the full wedding film experience. Content Creation is faster, more social-media focused and much more affordable: hundreds of short clips delivered the next day, plus three carefully edited reels made by us. It's perfect for couples who want beautiful, shareable content without the investment of full videography.

How is the music chosen for our film/s?

Music is a huge part of shaping the emotion of your film. We pay close attention to what you play throughout the day to get a sense of your taste, and then source a soundtrack that fits you and the overall feel of your celebration. Because it's not legal to use popular songs without very large licensing fees (except within Instagram Reels/Content Creation), our Wedding Films use licensed music from talented emerging artists - this fee is already included in your film price.

Do you support Marriage Equality?

Wholeheartedly, yes! We're thrilled to work with so many beautiful and diverse couples... whoever you are, we'd be honoured to capture your love.

Will we talk to you much before the day?

We have video/phone chats with our clients multiple times in the lead up to their big day, ensuring we have a great understanding of their vision, and how it will all unfold - and we're always available via email for any questions our clients may have.
